Regional Answers. Local Focus.
Littler Global provides employment and labor law solutions to companies around the world that have local, regional and global operations.

With more than 1,300 attorneys representing management in all aspects of employment issues, Littler serves as a single-source solution provider to the global employer community.

With an integrated global approach, our services are delivered by our local attorneys and working partners with a single point of contact.
Our services are divided into six main clusters that include a wide range of services. Our global approach, combined with the application of state-of-the-art technology, makes Littler a first-stop shop of labor and employment services.
Our lawyers can help clients make practical decisions and structure their employment relationships in the most cost-effective way.

Starting with the pre-employment requirements, visas, medical exams, criminal records and background checks, our attorneys counsel clients on effective and legally compliant approaches to engaging personnel including expatriate arrangements, use of independent contractors, direct employment or indirect employment using payroll agencies.

Our lawyers guide clients in implementing compensation plans and drafting sales and commission compensation policies.

Our team is available to train, teach, and audit a client’s payroll system to help ensure accuracy of payroll implementation and payroll taxes, to minimize the risk of liability.

Employee terminations represent one of the major concerns that employers face. Littler attorneys are experienced in providing counsel through all the steps of the process – from the calculation of the severance package and negotiating a settlement agreement, to effective enforcement of the settlement in court, if necessary.
